Re: Completeness Determination for Case-by-Case MACT Determination  
Pee Dee Generating Station (Permit No. 1040-0113)  
Florence County  
Kingsburg, South Carolina

Dear Mr. Hudson:

The South Carolina Department of Health and Environmental Control, Bureau of Air Quality (Department), on June 30, 2008, received the Case-by-Case MACT Determination application (*South Carolina Regulation 61-62.63*) submitted by Santee Cooper Pee Dee Generating Station for the above-referenced facility. The completeness review period for the application officially began on this date. Upon review, and receipt of additional information, the application has been deemed complete. The Department will initially approve the recommended MACT emission limitation and other terms set forth in the application, or the Department will notify the owner/operator in writing of its intent to disapprove the application, within 30 calendar days from the date of this letter. Calendar days do not include time periods where the Department may have requested or are awaiting additional information.

The permit application will now undergo a technical review. Please remember that any requests from the Bureau for additional technical information must meet specified deadlines. Failure to do so could result in the disapproval of the application.

Should you have any questions concerning the technical review, please contact me at (803) 898-3831 or [ellerjc@dhec.sc.gov](mailto:ellerjc@dhec.sc.gov).

Sincerely,

Joe Eller  
Engineering Services Division  
Bureau of Air Quality
